Continuous environmental improvement

Prime plc recognises the relevance of climate change to its operations and takes a responsible interest in the environmental impact of its business activities, aiming to contribute to environmental improvement and sustainable development.

Prime is committed to preventing pollution to the environment and incorporating designs produced in conjunction with environmentally favourable solutions by means of a programme of continual improvement.

Why work with Prime?

We welcome the ideas and initiatives of our employees, supply chain and specialist advisors so that our environmental performance can be continually improved.

Our Policy and environmental objectives will be formally reviewed annually, or as significant change occurs, whichever is more frequent.

Leighton Chumbley
Chief Executive

In particular Prime will:

- Meet all relevant legislative and other requirements and where appropriate exceed or supplement these by setting our own exacting standards.
- Seek to reduce consumption of materials in operations, reuse rather than dispose whenever possible, promoting recycling and the use of recycled materials.
- Ensure designers incorporate energy efficiency into new services, buildings and equipment and manage wisely in all options.
- Work in partnership with suppliers, customers and other design disciplines to minimise the impact of operations on the environment
- Work with external groups and organisation to promote the concepts and beneficial practices of environmental protection; and
- Maintain and publish a Carbon Reduction Plan
